

MICHAEL W. BOUFFARD, L.L.S. **SURVEY MANAGER**

Mr. Bouffard graduated from Paul Smith's College in 1989 with an A.A.S. in Land Surveying. He is licensed in the States of Maine, Massachusetts, New Hampshire, and Vermont. His professional affiliations include Massachusetts Association of Land Surveyors and Civil Engineers, New Hampshire Land Surveyors Association, and Vermont Society of Land Surveyors.

Mr. Bouffard joined Jones & Beach in June of 2008, bringing with him, eighteen plus years of surveying experience involving all types of land surveys for commercial and residential construction sites. Projects involved research of registered and recorded land; boundary location and determination; boundary calculations and decisions; as well as computations and layout of subdivisions and construction sites. In addition, he drafted, wrote and prepared metes and bounds legal descriptions, drafted and reviewed final boundary and subdivision plans, planned, scheduled, and coordinated survey-related tasks for land development, construction support and engineering projects.

Professional Experience:

- Supervision of multiple survey crews
- Preparation of proposals and contracts
- Computer competence
- Proficiency with current versions of Auto Cad, Land Desktop Development and Carlson Survey/Export
- Data collection and reduction
- GPS reductions
- Operation of Leica 1105 robotic total stations
- Research of registered and recorded land
- Computations and layout of subdivisions, boundary, land court, topographic and photo control surveys
- Construction layout
